

When life happens, Sydney Community connects

Help patients connect, share, and find resources through the Sydney Community app

Sydney Community is an app that connects Simply and CHA members with other members going through similar life experiences. Members can join communities as a person or caregiver who are coping with a diagnosis and seeking to connect with other members who know what it's like.

Here's how it works

Join the community

Your patients can go to **sydney-community.com** and get a link to download the app for iOS or Android. Members can use their Simply or CHA username and password to log in.

Once registered, members can connect with others and get advice from health advocates.

The community is waiting. Please promote this app to all your Simply and CHA patients who need assistance.

Find local resources

On the app, members can receive help with food, housing, and more.

Gain knowledge

There are also opportunities for members to learn about a range of useful topics.

Members can download the app at
sydney-community.com.
